

## SCHWEGO® damp 8174

Cleaner and rejuvenator for damping rollers

**Function** SCHWEGO® damp 8174 is a quick-drying cleaning and degreasing agents for all damping rollers in continuous-feed damping systems.

It will remove oily deposits such as ink and washing solution residues and will regenerate the hydrophilic surface of the damping rollers.

Due to the fast, residue-free drying process no residues will get into the fountain water if the product is used properly.

### Properties

- Intensive, residue-free cleaning
- Will quickly remove ink and oil residues
- High ink dissolving power
- Free of chlorinated and aromatic hydrocarbons

**Flash point** < 5° C

**Application** SCHWEGO® damp 8174 is preferably applied with a cloth in order to avoid any dragging in of dirt and cleaners into the fountain water.

SCHWEGO® damp 8174 can generally be used on all materials in case of heavy soiling by printing ink.

**Storage** Subject to appropriate storage, the described properties of SCHWEGO® damp 8174 remain stable for at least 24 months.

**Packaging** 1 l bottle | 200 l drum
