

SCHWEGO® clean III 8807

Cleaning agent for printing plate processors

Function: **SCHWEGO® clean III 8807** is a special cleaning agent for offset plate processors.

Properties:

- Intensive cleaning effect for machines
- Chalk and developer residues are removed
- The roller frames become bright and deep-down clean again

Application:

1. Discharge developer.
2. Mix **SCHWEGO® clean III 8807** into the developer bath. In case of regular application or more easily soiling **SCHWEGO® clean III 8807** can be diluted 1:3 with water.
3. Let run the processor with the cleaning agent for about 15 – 45 minutes until all soil particles will dissolve.
4. Moisten well the roller and plate guiding elements.
5. Discharge cleaning agent and rinse thoroughly with water.

Tip: Subject to appropriate storage, the described properties of **SCHWEGO® clean III 8807** remain stable for at least 24 months.

Packaging: 10 L canister
