

SCHWEGO® eco fount STM

Fountain additive for coldset printing

certified by

Function SCHWEGO® eco fount STM is a fountain additive especially tailored to the requirements of coldset printing.

It can be used on all printing presses and with all damping units. As a result of reduction of paper waste and lower ink/water supply interesting saving potentials arise.

SCHWEGO® eco fount STM for water hardness up to 10° KH
Additional, enhanced preservation

Properties

- Suitable for CtP-Plates
- Fast running free behavior
- Reduction of waste paper
- Stable adjustment of the pH-value
- Checked and released according to default settings of the machine builders
- Complexing of the hardness formers prevents any deposits on the ink and damping rollers

Quantity to add SCHWEGO® eco fount STM is added to the water with a ratio of 2-3%.

Storage Subject to appropriate storage, the described properties of SCHWEGO® eco fount STM remain stable for at least 12 months

Packaging 10 kg canister | 20 kg canister | 200 kg drum | 1000 kg container
