

SCHWEGO® power clean NC

Cleaning agent for NC-, PU-, UV- and Low-Migration Inks

Function SCHWEGO® power clean NC was developed for cleaning NC and PU inks. The product also cleans a wide range of inks, mixed with crosslinkers. Excellent cleaning of anilox and chrome rollers, chamber doctor blades, plates and sleeves. The cleaner is also suitable for UV and low-migration inks (offset/flexo).

Properties

- Water miscible
- Aromatic-free
- Biodegradable surfactants
- Odorless
- Alusafe

Application

For normal soiling, we recommend diluting SCHWEGO® power clean NC 1:1 with water. The product is also an alternative for cleaning flexo inks in an automatic plate-washing system, where corrosive cleaning agents cannot be used. If a slightly oil film remains after a manual cleaning of products, please neutralize with water.

Storage

Subject to appropriate storage, the described properties of SCHWEGO® power clean NC remain stable for at least 12 months.

Packaging

20 l canister | 200 l drum | 600 l container | 1000 l container
