

SCHWEGO® wash 5801

Blanket and roller washing solution

Function SCHWEGO® wash 5801 is a low-odour, medium-evaporation solvent for cleaning the ink rollers and blankets of offset printing presses. It contains no aromatic or chlorinated solvents and is therefore less dangerous for the operator and the environment. SCHWEGO® wash 5801 has excellent cleaning characteristics and, mixed with water, effectively removes ink from the surface leaving a smooth, ink-receptive surface.

Properties

- Suitable for manual washing and automatic blanket and roller systems
- Reduces blanket trapping
- Prevents oxidation and swelling of the rubber
- Promotes ink receptivity of rollers and blankets
- Miscible with water
- Excellent ink solvency characteristics

Flash point 40°C

Application

Manual Use

Rollers: apply SCHWEGO® wash 5801 pure or mixed with up to 25% water to remove ink and water-soluble contaminants in one easy application.

Blankets: apply SCHWEGO® wash 5801 with a wet cloth to remove ink and water-soluble contaminants. Before restarting the press, wipe with a clean wet cloth.

Storage Subject to appropriate storage, the described properties of SCHWEGO® wash 5801 remain stable for at least 24 months.

Packaging 25 L canister | 1000 L container
