

SCHWEGO® wash 5803

Blanket and roller washing solution

Function SCHWEGO® wash 5803 is a low odour, medium evaporation solvent for cleaning the ink rollers and blankets of offset printing presses. It contains no aromatic or chlorinated solvents and is therefore less dangerous for the operator and the environment.

Properties

- Suitable for manual and automatic blanket and roller washing systems
- It contains no aromatic or chlorinated solvents
- certified by FOGRA for use on machines and systems manufactured by: Man Roland, Heidelberg, KBA and Baldwin
- approved by ISEGA for printing food packaging
- Reduces blanket trapping
- Prevents oxidation and swelling of the rubber
- Improves ink receptivity of rollers and blankets
- Miscible with water
- Excellent ink solvency characteristics

Flash point 60°C

Application Manual Use
Apply SCHWEGO® wash 5803 pure or mixed with up to 25% water.
Apply SCHWEGO® wash 5803 with a wet cloth to remove ink and water-soluble contaminants. Clean with a wet cloth before restarting the press.

Automatic Washing System

Follow the instructions provided by the washing system manufacturer.

Storage Subject to appropriate storage, the described properties of SCHWEGO® wash 5803 remain stable for at least 24 months .

Packaging 25 L canister | 1000 L container
