

## SCHWEGO® foam 8453

### Defoaming agent for fountain solution circulations

**Function** SCHWEGO® foam 8453 is a liquid, very effective defoaming agent for all fountain solution circulations.

An increased foam formation might happen under certain circumstances in the fountain solution circulation. Reasons for that can be an unsuitable fountain additive, an increased feeding of air into the fountain solution system, soiling by washing agents or nucleation.

### Properties

- Small dose
- Quick distribution in the circulation
- No need for classification
- Biodegradable

**Quantity to add** abt.0.02 % / 20 ml for 100 liter fountain water

**Application** SCHWEGO® foam 8453 is sprayed on the surface of the foam or added directly to the fountain water.

**Storage** Subject to appropriate storage, the described properties of SCHWEGO® foam 8453 remain stable for at least 24 months.

**Packaging** 1 l bottle
