

## SCHWEGO® soft 2000 T eco

Fountain additive for coldset printing, meets the criteria of various environmental labels

certified by

**Function** SCHWEGO® soft 2000 T eco is a fountain additive especially tailored to the requirements of coldset printing.

It can be used on all printing presses and with all damping units. As a result of reduction of paper waste and lower ink/water supply interesting saving potentials arise.

SCHWEGO® soft 2000 WT eco for water hardness from 4° to 10° KH

SCHWEGO® soft 2000 WTM eco for water hardness from 4° to 10° KH  
enhanced preservation

### Properties

- Fast running free behaviour
- Reduction of waste paper
- Reduced ink/water supply
- Excellent anti-linting behaviour (reduces lint build-up)
- Stable adjustment of the pH-value
- Checked and released according to default settings of the machine builders
- Complexing of the hardness formers prevents any deposits on the ink and damping rollers
- meets the criteria of various environmental labels

**Quantity to add** SCHWEGO® soft 2000 T eco is added to the water with a ratio of 2-3%.

**Storage** Subject to appropriate storage, the described properties of SCHWEGO® soft 2000 T eco remain stable for at least 12 months.

**Packaging** 10 kg canister | 20 kg canister | 200 kg drum | 1000 kg container
