

SCHWEGO® aqua clean 8470

Waterbased cleaning agent for screen printing and flexography

Function: SCHWEGO® aqua clean 8470 is an effective cleaning agent for solvent based and UV-drying screen printing inks and flexographic inks. It will comply with the requirements of the European Detergent Ordinance and is free from volatile solvents.

SCHWEGO® aqua clean 8470 is outstanding for its wide range of applications offered and its high cleaning power for screens, blades, anilox rollers, strippers, cylinders and chambered doctor blades.

Properties:

- Neutral odour
- Low VOC
- Water dilutable
- Tensides completely biodegradable
- Good compatibility of materials to metall/plastic

Application: SCHWEGO® aqua clean 8470 can be used for manual cleaning or in washing units. The cleaning effect can be considerably improved by reaction time and higher temperatures (up to 50°C). In case of special requirements (dried ink residues, thick ink layers etc.) SCHWEGO® solv 8461 can be used additionally.

Tip: Certified by BG ETEM as "low emission product"

Subject to appropriate storage, the described properties of SCHWEGO® aqua clean 8470 remain stable for at least 12 months.

Packaging: 20 L canister / 200 L drum / 600 L / 1000 L container
